## Strengthening the Capacities of Indigenous Organizations in the Amazon

We work with **18 indigenous peoples organizations (IPOs)** in the Amazon to enhance their financial and administrative capacities.

*A regional project with local impact*

Partner organizations support our work with IPOs in

**6 countries** of south america

### During this project IPOs

Carry out a **process of co-construction and self-evaluation** of their institutional capacities and build a strengthening plan.

Receive technical support to strengthen the **administrative and financial management** of resources.

Manage a **small grant** to advance in the implementation of their strengthening plans.

*Methodological tools such as the ITOCA analysis and the IPO index, are adapted to each context and used throughout the process. Learn more at <https://bit.ly/3CO7L77>*

## Strengthening capacities

to directly access public and private funds.

And thus, better advocate for the **governance** and

**rights** of their

communities and territories.
